

AT-A-GLANCE™

planning for today
...responsible for the future

Recycled Products 2009

When you're a company whose business depends on - and directly impacts - the world's resources, you have higher standards to reach. The AT-A-GLANCE® product brand, as part of the MWW family, goes beyond what's required, and finds innovative ways to integrate sustainability deep within our business. As a global leader, we have many opportunities to make a difference, and our business decisions are centered on balancing the interests of our employees, customers, communities and shareholders.

sustainability

is more than just a goal. It's a guiding principle.

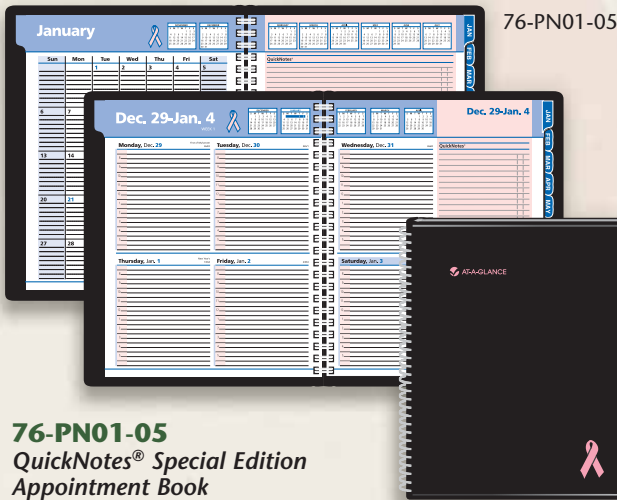

- ▶ ***Environmental Stewardship*** reaches from the forests we own, to the products we provide, to the water and energy we use in the manufacturing process, to our innovative and beneficial use of waste materials.
- ▶ ***Social Responsibility*** begins with promoting the health and safety of our employees and extends to supporting community projects that enhance the quality of life wherever we do business.
- ▶ ***Economic Strength*** means economic growth opportunities for employees, strong partnerships with suppliers, growing value for shareholders and a more prosperous world economy.

One out of eight women in the U.S. will develop breast cancer in her lifetime. Fortunately, more women are surviving breast cancer each day, due to earlier diagnoses and more effective treatments. At City of Hope, breast cancer services and technologies provide women with the best care available.

MWV, the makers of AT-A-GLANCE® brand, have joined the battle against breast cancer. \$50,000 will be donated to City of Hope for breast cancer research, treatment and education. For information about City of Hope, please visit www.cityofhope.org.
